PRINT OUT RECEIPT

The CDM-3000 is a high speed coin sorter with total flexibility. CDM'S exceptional electronic counting sensor technology provides outstanding accuracy, rejecting foreign and counterfeit coins. It provides accurate sorting into seven slots (USD Version), including rejects, by the use of solenoids. This machine provides flexible sorting as the outlets can be allocated just as you prefer.

FEATURES

- One of the highest speed sorters in the market.
- Displays on its LCD the total value of counted coins.
- Built for sorting up to 6 different denominations including the SBA & Gold Dollar.
- High capacity hopper holding up to 13000 coins.
- Detects and rejects foreign and bent coins.
- Low worker noise level.
